

Basic parameters

Size: 480 mm * 250 mm * 130 mm

Weight: about 6 kg

Working voltage: AC220V 50 Hz

Output voltage: DC24V

The number of channels: 1-8

Digital tube display mode: highlight inspection way

The input signal: 4-20 mA

Signal output: (optional) 1-8 standard 4-20 mA current loop output, and with input signal one to one

Communication interface : (optional) 1 road RS232 and RS485 bus interface
Standard ModBus RTU protocol or non-standard, can connect the computer monitor

Response time: $\leq 8s$

The control output: AC 250 V, 30 V DC 10 A 10 A (relay switch output)

Sampling accuracy: 12 bit AD

Measurement range: 0-9999 (can be set)

Alarm way: first alarm more than 90 dB alarm way; second alarm more than 120 dB

Inspection time: 1s every road inspection 1 s

Connection mode: can connect two wire,

three wire system 4-20 mA current signal of the transmitter

Humidity range: $-10^{\circ}\text{C} \sim 50^{\circ}\text{C}$

Humidity: 15% $\sim$ 70% RH (No condensation)

Installation method: wall-mounted installation
